Guidelines to Join Live Classes

This guide outlines the process for joining live classes using the Classroom. Follow the steps below to participate in upcoming live sessions.

1. **Class Schedule and Communication:** Please be advised all participants will receive notifications regarding class sessions through email. Additionally, WhatsApp notifications will be sent to those whose registered contact number is a WhatsApp-enabled mobile number.

    a. Email Notification:

    b. WhatsApp Notification:

    c. Classroom Link: https://classroom.codingninjas.com

2. **Classroom Interface Overview:** Upon entering the CodingNinjas classroom, you will be presented with a calendar view displaying

three class sessions: one from a past session, one currently scheduled, and one upcoming. Please refer to the inserted screenshot for a visual guide. Additional details about the classroom, including other relevant session information, will be displayed in a list format beneath the calendar schedule.

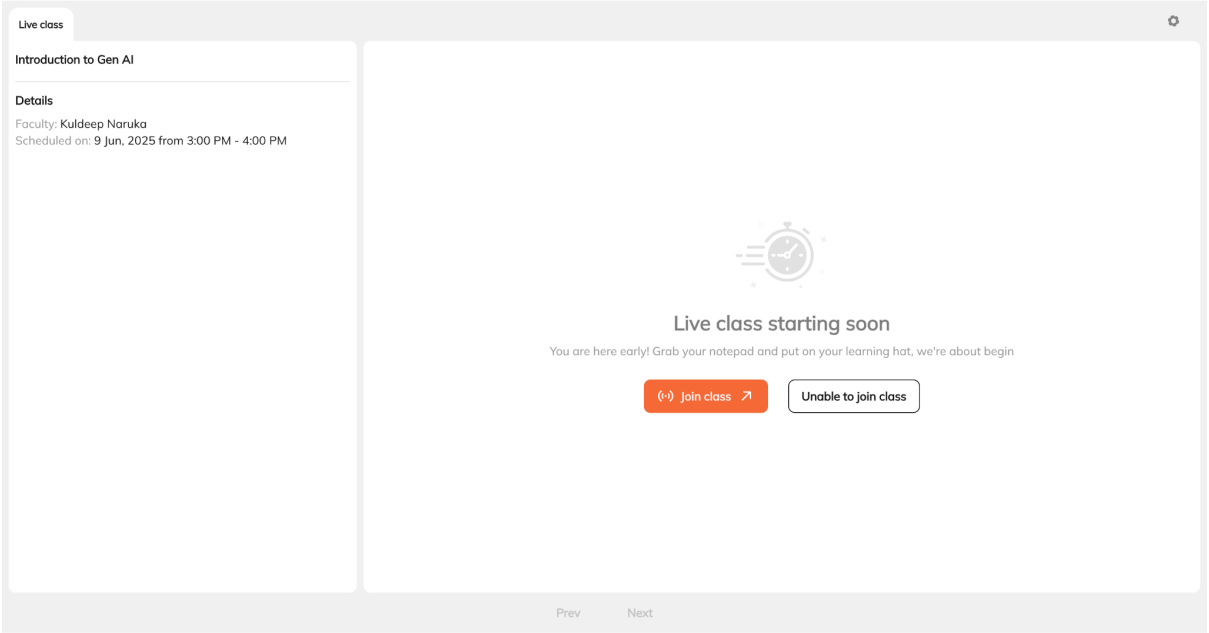

3. **Access to Class Content and Joining Instructions:** The calendar view within the classroom will indicate if a class is scheduled for the current day. Please note that the content for each class will be unlocked and accessible 12 Hours prior to the start of the session. Similarly, the link to join the class will be made available **15 minutes** before the scheduled time.

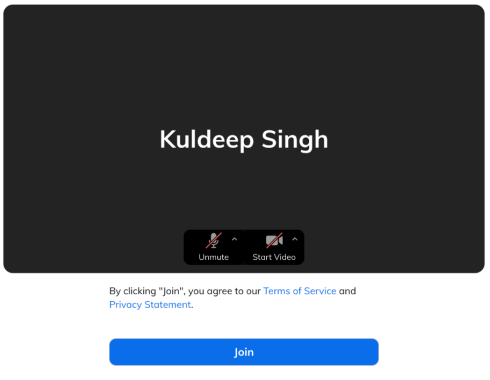

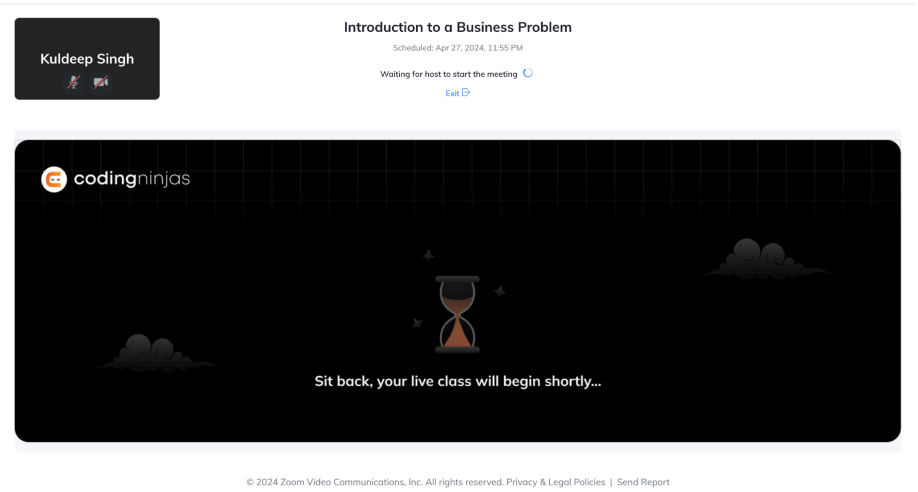

4. **Joining the Class Session:** Upon availability, click the “Join Now” button to proceed to the class. This action will open a new window

where you must select the “Join” button. You will then be placed in a waiting room. Participants will remain in the waiting room until the instructor initiates the session.

5. **Facing Issues Joining the Class?:** If you experience any technical issues while trying to join the live session, click the "Unable to join class" button. This will immediately alert our Support Team and help you get quick assistance. Make sure to describe the issue briefly if prompted. Our team will reach out to you promptly to resolve the problem and ensure you don’t miss the session.

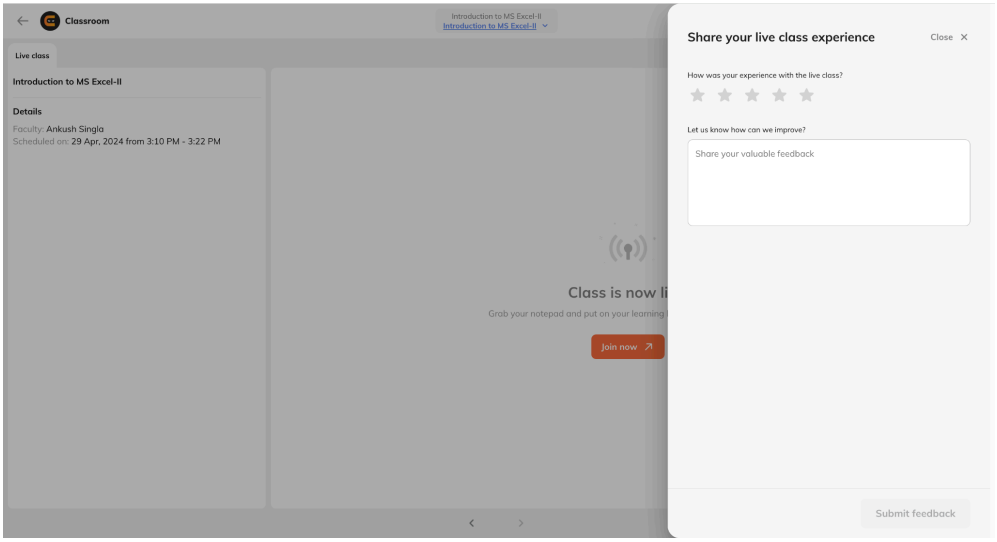

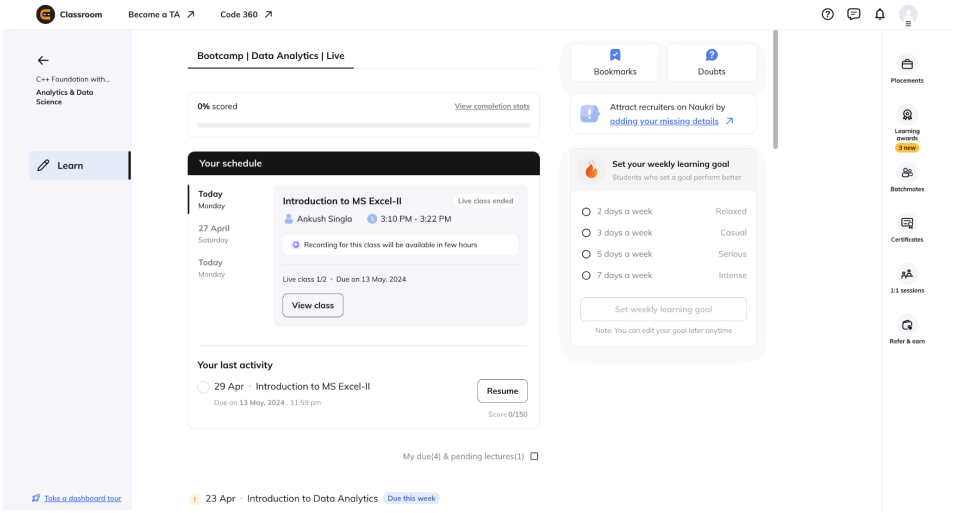

6. **Live Class Interface:** All live classes will be conducted via the Classroom Interface. Participants will have access to various meeting features including chat, reactions, and other interactive tools. Please familiarize yourself with these features to enhance your participation in the sessions.

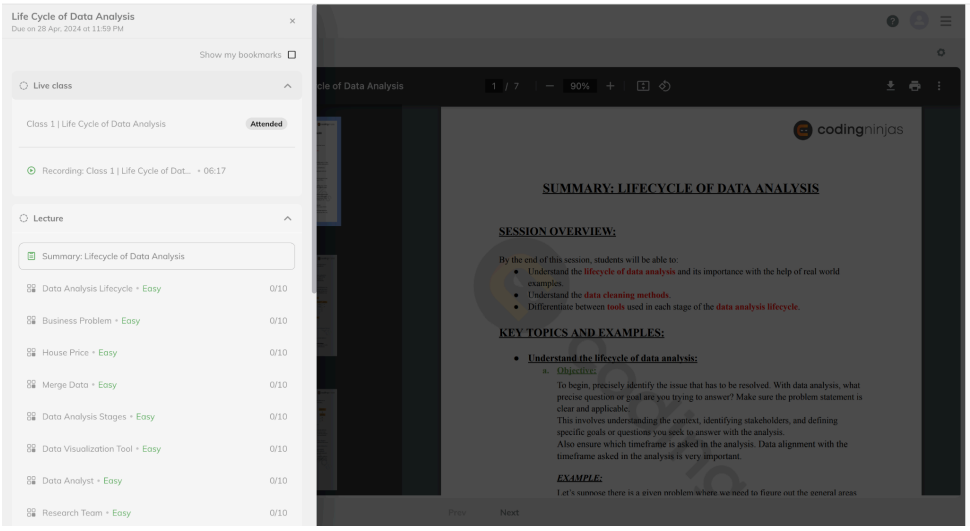

7. **Post-Class Feedback Submission:** Upon exiting the class, a feedback panel will automatically appear. All participants are requested to provide their feedback directly through this panel.

8. **Access to Class Recordings:** Following the conclusion of each live class, the recording will be made available under the "Live Class" tab in the lecture interface. Students may access these recordings a few hours after the live session ends.

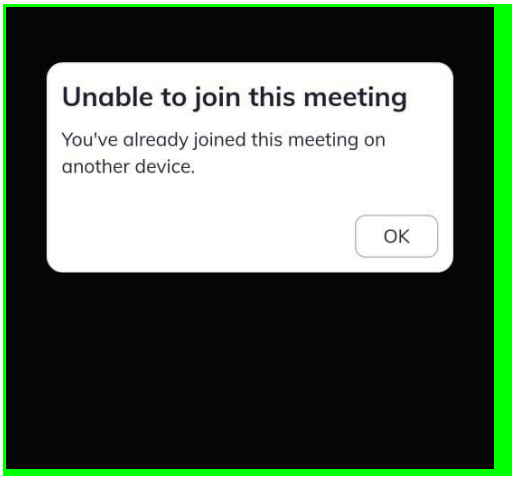

9. Problems related to the course material are located under the “Lecture” tab. Students are advised to attempt solving these problems after attending the live class or viewing the class recording. This practice will aid in reinforcing the concepts discussed during the sessions.

DOS and DON’TS/FAQs:

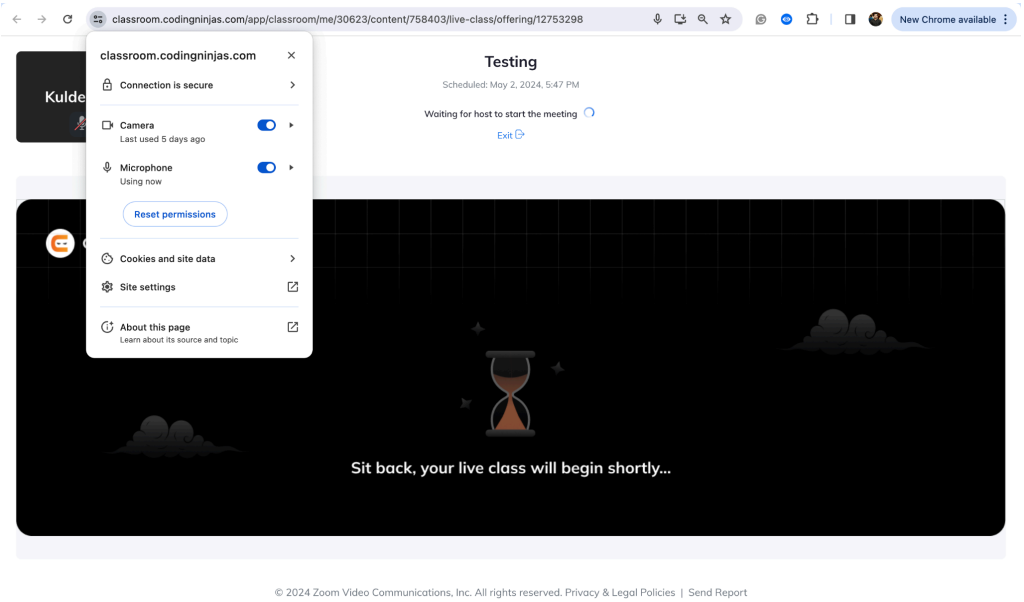

- Always utilize the classroom on a single device when attending any live sessions. The classroom does not permit joining the class from multiple devices and will display an error, as illustrated in the attached screenshot.

-

- If you encounter an error due to internet connection issues and get disconnected, refrain from opening the classroom link in multiple tabs or devices. Stick to the same tab or device and refresh the link. You should be able to re-join the class within 30-60 seconds. Ensure you have a stable internet connection.

- Ensure that upon entering the Live Classroom, the specified tab/website is permitted with the necessary settings including microphone, camera, and other site settings as shown in the attached screenshot.

- If you encounter any microphone or speaker issues, please ensure to check the settings after joining the Classroom Meeting and always select the correct options visible in the settings, as depicted in the attached screenshot for your reference.
